

ClassicHBSling

SystemRoMedic™

Trial Fitting Protocol

Patient's name: _____

Social insurance number: _____

ClassicHighBackSling enables a comfortable and secure seated posture and gives the patient a feeling of security. It is designed to be left in the chair after the transfer is completed, which means that the patient sits on the sling. It provides support all the way from the hollow of the knees up over the head. ClassicHighBackSling is designed for use in most common lifting situations such as transfers from bed to wheelchair, etc.

Functional inspection

Visual and mechanical inspection

Check the condition and function of the sling regularly. Always inspect the product after laundering. Check to ensure that seams and material are free from damage. Check to ensure that fabric is not worn or faded. Apply load to the device and check to ensure that clasps, handles, etc. withstand heavy load. If there are signs of wear, the product must be discarded.
