Eva600EE is a versatile mobile patient lift for all lifting situations, especially for heavier users weighing up to 270 kg/600 lbs. When used with Handicare’s functional and easy-to-use SystemRoMedic™ lifting accessories, Eva600EE is the right choice for lifting in connection with transfers to and from the floor, chair or bed, as well as for horizontal lifting and gait training.
Eva600EE

- Extra strong and stable, SWL 270 kg/600 lbs
- Aluminium for low weight – easy to manoeuvre
- Mast adjustable to three height positions – large lifting range
- Height-adjustable handle bars – comfortable and ergonomic working positions
- Stable aluminium sling bar with reliable safety latches
- Wider sling bar providing a more open lifting sling - ideal for larger users
- Encapsulated twin castors – easy rolling and maintenance-free
- Electrical base widening
- Electrical emergency stop button readily available on the control box
- Electrical and manual emergency lowering
- High capacity battery with long service life
- Built-in charging
- Quick guide on the lift
- Many accessories for safe, easy and individually adapted lifting of users
