ProServe®

Service Solutions

Why ProServe®?

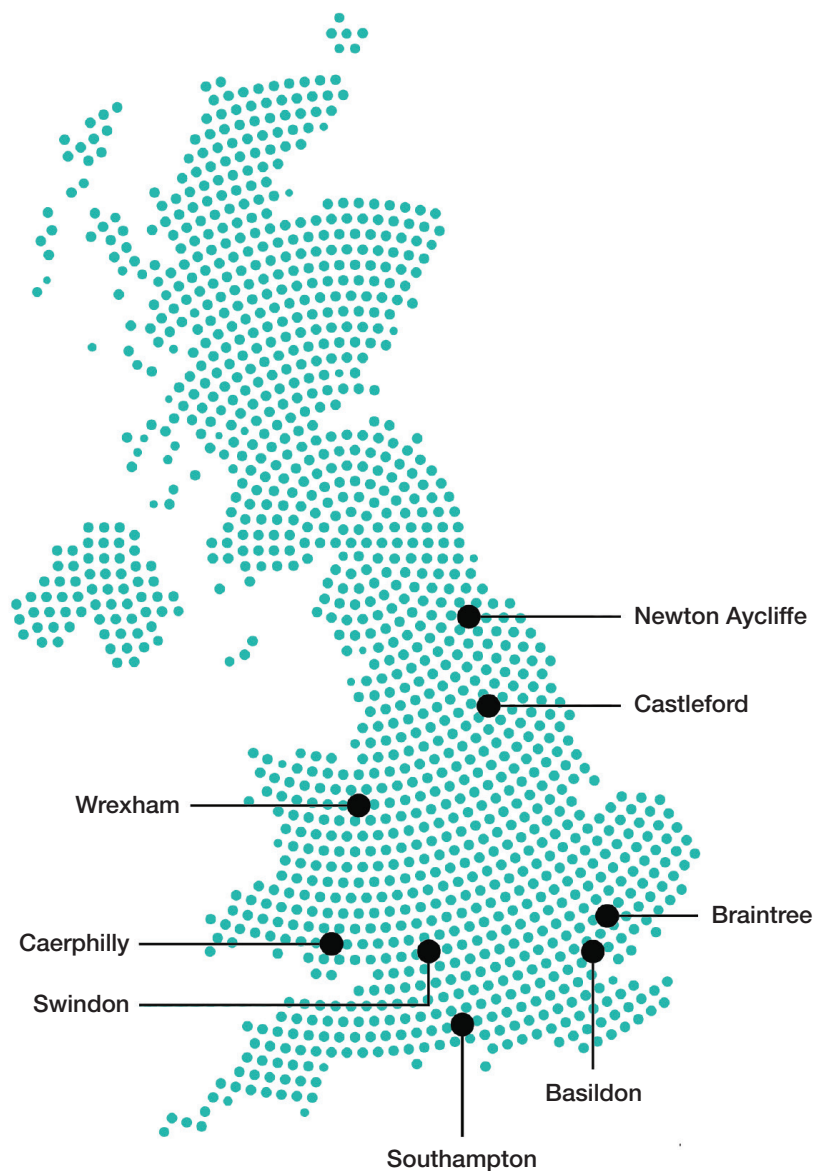

Service Solutions from DHG

ProServe® Service Solutions provides you with our premier quality, ISO 13485 compliant servicing options for the wide range of products your hospital or equipment service have on-site. They will be cared for by our team of highly skilled engineers that are trained to ensure they are qualified to the required quality and regulatory standards we demand.

DHG offers a range of technical service packages designed to suit the needs of our customers in today's ever changing healthcare environment.

We provide technical support from our fully equipped Service Depots at our UK headquarters in Caerphilly (near Cardiff), Wrexham, Basildon, Braintree, Castleford, Newton Aycliffe, Southampton and Swindon. DHG also perform specialist customer training from these depots.

For customers with our ProServe® Sustain, ProServe® Active and ProServe® Active Plus packages, our field based team of MIA accredited Service Engineers offer a wide range of services from training your teams through to complete on-site delivery of your servicing, repairs and preventative maintenance requirements. Fully supported by our Technical Service department in Caerphilly, we can provide the assurance of efficient, high quality support and solutions to minimise downtime.

Decontamination Solutions

DHG offer a thorough decontamination service that delivers outstanding results, whilst reducing energy consumption, eliminating the use of harsh bleaching agents and keeping patients and caregivers safe. DHG's decontamination service incorporates innovative and highly effective Ozone technology combined with TECcare and EcoStatic processing, an environmentally friendly alternative to traditional laundry processes. Ozone technology works at low or ambient temperatures, using oxygen-rich water to disinfect and destroy 99.99% of harmful micro-organisms, such as MRSA, E. coli, C. difficile spores and Coronavirus.

Rental Solutions

DHG acknowledges that most organisations do not always have the appropriate equipment required at the very time that it's urgently needed. We also recognise that there is not always enough equipment on your shelves to fulfil an increasing clinical demand.

Often, the broader needs of a multitude of healthcare industries require urgent ad-hoc or planned rental programmes. At DHG, we are perfectly positioned to offer these types of services. With our strategically located service and decontamination centres, we can offer a fast, local service to the people that matter.

Whether it's a specialist bariatric requirement, pressure relieving mattress and bed rental or even a thorough decontamination process, you can be assured that DHG have the technical expertise and product to deliver a clinically effective solution.

All of our specialist equipment is available to rent or purchase at very competitive prices, provided from a service depot near you. Should you require any of the services mentioned above or if you simply need further information about these products, then please contact us.

What Areas do DHG Cover?

Our rental team cover the whole of England, Scotland and Wales with a maximum delivery time of 4 hours. Rentals can be made 24 hours a day, 7 days a week for 365 days of the year.

Training and Installation

Full training and install assistance will be provided with your rental equipment. Our trained engineers will ensure you have been fully trained before leaving any product with you.

Achieving Clinical Outcomes

Product Care Maintenance

Partnership with your Clinical Team

We are able to offer technical support options that can be managed around your priorities and those of your staff. We plan our service work in alliance with your clinical and technical teams, enabling you to focus on achieving your daily patient and clinical outcomes.

Simple Asset Management

Choosing ProServe® from DHG provides safeguards against poorly maintained equipment that may result in costly downtime and operational performance issues. We aim to reduce the often complicated and time consuming internal processes to identify equipment that need upgrades and repairs. The service we offer helps healthcare facilities who are aiming to maximise their use of assets and those who are planning ahead for their capital replacement.

With ProServe®

- Additional units provided during service period – Reduced potential risk to productivity.
- Priority on-site trouble shooting and assistance – There for you when you need us most.
- Unlimited accidental damage cover – Peace of mind that we will cover all repairs on our equipment.

With ProServe®

- Reduce unnecessary processes by using our field-based engineering teams.
- Product care throughout the life of the product helping maintain performance.
- Maximising potential utilisation of equipment due to availability of loan kits and quick turnaround on repair.

Collaboration with Medical Engineering

Our qualified engineering staff are highly trained and skilled to service and repair your equipment. We guarantee quality and product reliability by only using genuine parts, specialist tooling and DHG approved quality inspection procedures. These elements within ProServe® are designed to help users get the best experience from the products, and greater reliability.

Certified to ISO 13485, our UK Service Depots and Mobile Servicing Units provide a service that is a benchmark within the industry, strategically positioned geographically around the UK to provide rapid response times for urgent breakdowns and on-site service visits.

Predict and Control Your Costs

With ProServe® from DHG, we offer you greater peace of mind that all eventualities with your equipment are protected against and your costs for servicing and maintaining your equipment will not fluctuate over the time of a contract. Choose from a range of clear and simple options, with no hidden costs, that allow your clinical teams to keep on performing.

With ProServe®

- We have accredited first line diagnostic training – Helping you support your clinical teams.
- On-site mobile maintenance – Faster breakdown response times.
- Unlimited accidental damage cover – Simplifying your processes.

With ProServe®

- Financial stability and predictability through unlimited repairs, with no hidden costs.
- Priority on-site trouble shooting and assistance.
- Additional units provided during service period – Minimising potential patient and clinical impact.

Call-out charges Call-out and first 30 minutes – £55.00 | Every hour after call-out charge at £35.00 per hour
