The Dyna-Tek Owl Cushion is a uniquely designed postural management product, providing exceptional pressure re-distribution via its “Owl” contoured design. This product is specifically made for users considered to be at “High Risk” of pressure ulcer development, with consideration towards pelvic tilt aspects amongst other key areas. Designed predominantly to house the ischial tuberosities within it’s circular surface, this product shares the patient’s weight equally, in areas normally vulnerable to skin breakdown. The Dyna-Tek Owl provides the ultimate combination of pressure care and patient comfort.

**Features**

1. Unique “Owl” surface design
2. Profiled foam surface
3. Finest quality CME foam
4. Multi-stretch, vapour permeable cover (impregnated with an anti fungal agent)
5. Non-slip base
6. Available with sag compensator

**Benefits**

- Creates exceptional pelvic stability and ischial housing
- Provides excellent pressure re-distribution & important patient comfort
- Prevents patient bottoming out and aids patient transfer
- Reduces shear & friction forces, whilst assisting infection control policies (can be laundered up to 95°C)
- Aids moving & handling procedures, providing ultimate patient safety
- Suitable for wheelchair users

**Technical Specifications**

- **Product Code**: CUSH/OWL/46/43/9
- **Risk Category**: High Risk
- **Weight Limit**: 24 Stone / 152kg
- **Warranty**: 2 Years
- **Dimensions**: (Length) 46cm x (Width) 43cm x (Height) 9cm (18” x 17” x 3.5”)
- **Variable Sizes Available Upon Request**
- **Foam Density**: CME Base – 38–40kg/m³  
  Nominal Hardness – 200 Newtons
- **Fatigue Class**: Severe
- **Fire Retardancy**: BS7176; 2007
- **Weight**: 1.3kg
- **Colour**: Blue
- **Hypochlorite Solution**: 1,000 ppm diluted or 0.1%  
  (or to be used in conjunction with local infection control guidelines)
