# Jake's Story

Jake is a bright young 2 year old who contracted meningitis when he was just 2 weeks old. The meningitis has left Jake with cerebral palsy which has caused a delay in his motor and visual development. Jake's family were keen that he experience life like a normal toddler, including a go on the swings, going out to the café for lunch and of course going to the shops.

All experiences which would help him to grow and develop in a natural environment.

Find out all about Jake and our other Firefly friends

"Absolutely fantastic product! The GoTo Seat is so easy to use and has allowed us to bring Jake shopping with us any time we want! We have used the GoTo Seat on trolleys, on swings in the play park at home at the dinner table and in restaurants, it really has changed the way Jake can interact with people around him! His posture is excellent in the GoTo Seat. Thank you!"

"The GoTo Seat has made a real tangible impact on ours and Eva's lives. Simple things like sitting at a dinner table as a family or going on a family bike ride in the country are now possible. It's an incredible product, lightweight, portable and multifunctional. We would thoroughly recommend the GoTo Seat!"

**Mel Lundin**  
Lewes

"With Poppy having Cerebral Palsy it was quite difficult to organise and actually go on a shopping trip! With the GoTo Seat it's a pleasure to see Poppy upright, smiling and laughing when out shopping, Poppy loves being out and about especially in a supermarket. The GoTo Seat is easy to use, wipeable, safe and secure. It's a great product! Would highly recommend."
